#### RAW MATERIALS

All our products are made of first-conversion Polyethylene or Polypropylene of certified food grade quality. Colouring possible

#### SAFE X™ RANGE

All our injection-moulded parts can be made of our X-ray-detectable material for security against foreign objects

#### INDIVIDUAL CHEESE DRAINERS

For your orders of individual moulds and cheese strainers, contact our distributors, of which you will find the adress list below

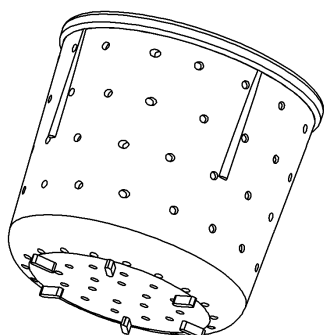

[www.groupemedicos.com/distributeurs-mino-gaillard.html](http://www.groupemedicos.com/distributeurs-mino-gaillard.html)

#### BLOCKFORMS AND TRAYS

Designed according to the customer's need, they are designed for the production process, based on existing cell models or new injection matrixes. The components (cells and prehensile handles) are assembled by polyfusion

TECHNICAL SPECIFICATIONS

---

# D R A I N A G E T R A Y S

#### RAW MATERIALS

All our products are made of first-conversion Polyethylene or Polypropylene of certified food grade quality. Colouring possible

#### SAFE X™ RANGE

All our injection-moulded parts can be made of our X-ray-detectable material for security against foreign objects

#### INDIVIDUAL CHEESE DRAINERS

For your orders of individual moulds and cheese strainers, contact our distributors, of which you will find the adress list below

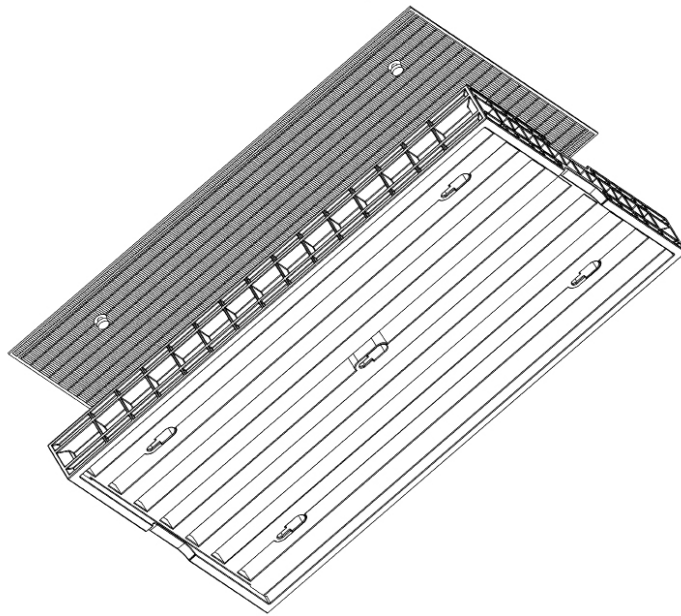

[www.groupemedicos.com/distributeurs-mino-gaillard.html](http://www.groupemedicos.com/distributeurs-mino-gaillard.html)

#### BLOCKFORMS AND TRAYS

Designed according to the customer's need, they are designed for the production process, based on existing cell models or new injection matrixes. The components (cells and prehensile handles) are assembled by polyfusion

## DRAINAGE TRAYS

Total dimensions	Inside dimensions	Stacking gap
760 x 505	710 x 475	40
805 x 537	775 x 507	40

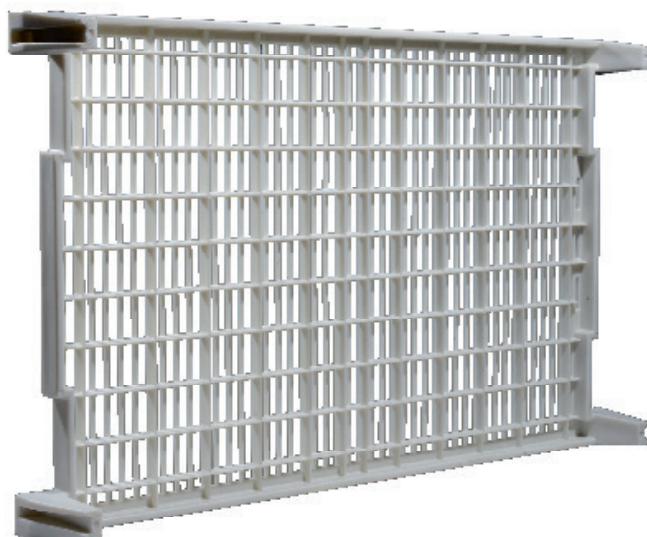

Plateaux double-face équipés de stores d'égouttage interchangeables
